Great looking young Sittin' Bull granddaughter with tons of potential. Her sire was 82" TTT and weighed 1900 pounds! He's now dead and gone so these genetics are no more. Her dam is a big bodied cow and a milker with a ton of total horn that is a Wyoming Warpaint daughter. We have retained her heifer this year by Sweetwater BCB and is bred back to Concealed Weapon for yet another calf that will out produce her! Millennium Futurity Eligible.

**Total Horn:** 60.7375 on 10/04/2017  
**TTT:** 58.2500 on 04/04/2023
