This cow is what I refer to as a "sleeper." Her plain white wrapper just causes me to look her over as just a number. She is quite possibly the friendliest TL cow I have ever met, I can literally milk this cow in the field, check her feet, measure her horn's, and even set a small child on her back! Now the data is hitting the screen... She is out of Fen-Wac Destination up, a Cowboy Up Chex son. Whisky Lullaby is her dam, a JP Rio Grande
